

BRINDA GOHEL

Aspiring Full Stack Developer • B.E. Information Technology Student

brindagohe192@gmail.com • linkedin.com/in/brinda-gohel • Bhavnagar, Gujarat, India

CAREER OBJECTIVE

Motivated B.E. Information Technology student with hands-on experience in web development, Android, .NET, data analytics, and IoT through multiple internships. Recognised as a Google Student Ambassador and certified in Google Gemini 2.0, demonstrating leadership, communication, and practical AI tool skills. Passionate about building end-to-end web applications and seeking an entry-level Full Stack Developer role or internship to grow, contribute, and learn modern frameworks.

EDUCATION

B.E. in Information Technology | Shantilal Shah Engineering College *2024 – Present*

Currently pursuing undergraduate degree with focus on software engineering, databases, and full stack web development.

Diploma in Information Technology | Sir Bhavsinhji Polytechnic Institute *2020 – 2024*

Completed 3-year diploma covering programming fundamentals, networking, DBMS, and software development.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript

Backend: java

Mobile Dev: Android (Java), GUI Components, Event-Driven Programming

Database: MySQL, Database Connectivity, CRUD Operations

IoT : Arduino UNO, NodeMCU, Firebase Realtime Database

Tools: Git (basic), VS Code, Android Studio, Postman (basic)

Soft Skills: Public Speaking, Presentation, Team Leadership, Task Management

INTERNSHIPS

Data Analytics Intern | IBM / CSRBOX *Dec 2024 – Jan 2025*

- Completed IBM's 'Turning Data into Decisions' program using Python to analyse real-world business datasets
- Applied Pandas and NumPy to clean and transform data, generating actionable visual insights using Matplotlib
- Practised converting raw data into structured reports to support informed decision making

.NET Development Intern | Nexus Infotech *Jul 2023 – Aug 2023*

- Built backend modules in C# and .NET, implementing business logic and relational database operations
- Practised CRUD operations — data storage and retrieval — core skills for any full stack backend developer

Android App Development Intern | LNX Cloud Technology *Jul 2023 – Aug 2023*

- Developed Android applications in Java, implementing UI layouts, intents, event listeners, and custom themes
- Gained hands-on understanding of mobile app architecture and the complete app development lifecycle

IoT Engineering Intern | LNX Cloud Technology *Sep 2022*

- Programmed Arduino UNO and NodeMCU microcontrollers, integrating sensors and writing embedded C code

- Built a Firebase-backed web interface to remotely control hardware, experiencing full cloud-to-device data flow

CERTIFICATIONS & PROGRAMS

- Google Student Ambassador** | Google 2025
- Selected as a Google Student Ambassador, representing Google's tools and products within the college campus
 - Organised and led student sessions on Google productivity tools, guiding peers on effective usage for academic tasks
 - Strengthened leadership, event management, and public communication skills through campus-level programs

- Google Gemini 2.0 Program** | Google 2025
- Explored Gemini 2.0 features and capabilities, learning how AI tools support student learning and daily productivity
 - Presented and guided fellow students on effectively using Gemini for academic and personal tasks
 - Developed practical prompt engineering skills to extract better, more accurate results from AI tools
 - Strengthened communication, presentation, and task management skills through program activities

IBM Data Analytics — Turning Data into Decisions using Python | IBM / CSRBOX Jan 2025

Fundamentals of Digital Marketing | Google Digital Garage 2023

Android App Development | LNX Cloud Technology Aug 2023

IoT Engineering with Arduino & Firebase | LNX Cloud Technology Sep 2022
